Tilli.

Making kids happier, safer, and smarter.

INCUBATED AT STANFORD
BACKED BY UNICEF INNOVATION
HUNDRED 2026 · QS GOLD K–12

Measure and strengthen the 12 foundational skills every child needs before their 10th birthday.

A research-backed assessment and SEL programme for children aged 3–10. 30 minutes a week. Measurable, term after term.

WHAT YOUR SCHOOL GETS

📊 **360° Assessment**
Teacher, parent and child — three perspectives on the same 12 skills, 3 times a year. 150+ indicators, 579 data points per child, per year.

📚 **36-week play-based curriculum**
One or two skills built each week through play. 30 minutes, inside an existing period — no new timetable slot.

🤖 **Ask-Tilli — AI teacher assistant**
Answers a teacher's questions about a specific child, grounded in that child's own assessment data.

🎓 **Teacher training**
Rooted in developmental psychology and neuroscience. Practical, classroom-ready, built for adoption.

📝 **Holistic Progress Cards**
A plain-language report on each child's growth, 3 times a year — for parents, and for your evidence file.

🧰 **Physical kit**
Feelings Time books, Emotion Cards, ABCDE cards and workbooks.

THE 12 SKILLS, IN TWO SYSTEMS

🧠 **Executive Function**

Attention · Working Memory · Cognitive Flexibility · Planning & Organisation · Inhibition — Distraction · Inhibition — Response

❤️ **Social-Emotional**

Emotion Awareness · Emotion Regulation · Relationship Skills · Empathy · Metacognition · Critical Thinking

PROOF

53
schools across India & Sri Lanka

95%
of teachers rate the training highly effective

9 in 10
children improved emotion regulation in a term

12,510
children assessed to date
